# ARE YOU A MUSICIAN? OR A MAGICIAN?

The greatest musicians have been lauded as magicians: they transport their audiences on an epic adventure, giving them the impression that they have traveled through time and space without leaving their seats. Their sound takes you to another dimension. The melodies, harmonies and rhythms serve as characters, scenery, and episodes in the worlds of your imagination.

Creating a powerful sensory experience for your audience is where true artistry comes into play. This masterclass by pianist, composer, and teacher Elizabeth Borowsky focuses on developing mental imagery and refining the art of communicating it, both through sound and stage presence. Learn how to make your performance powerfully communicative, and positively memorable.
